

There's a Ship

(Words by Ladd Dunfield and Music by Ruth Dunfield)

There's a ship that sails over the sea
Takes my true love away from me
It'll be gone three years - leave me all alone
Like a stranger a thousand miles from home

Blow - blow winds blow him home to me
Bring my love back from the restless sea
From the restless sea

All you travelers if you're ever on a distant shore
Chance you should meet my handsome sailor
Give him this word from me that I'm still true
And I'll wait for him till the whaling's through

Blow - blow winds blow him home to me
Bring my love back from the restless sea
From the restless sea

There's a ship that sails over the sea
Takes my true love away from me
Away from me
